Stay at Home Public Health Emergency Order for Cass County, Missouri

CASS COUNTY, MO (March 23, 2020) – Cass County Health Department Director Andrew Warlen— in consultation with the Cass County Commissioners – today issued a Stay at Home order for all of Cass County. This emergency order was issued to protect the health and safety of all residents of Cass County, with the goal of limiting the continued spread of Coronavirus.

Effective 12:01 a.m. March 24, 2020 until 11:59 a.m. April 24, 2020:

- Cass County residents are required to stay at home unless they are engaged in one of the essential activities specified in the order.
 - Essential activities include working in an essential business, obtaining supplies or necessary services (including but not limited to food, medicine, cleaning supplies, and pet food), seeking medical care, caring for a family member or loved one, and exercising and maintaining personal health. Individuals are strongly encouraged to practice social distancing to the extent feasible while engaging in these activities and to stay home if not engaging in one of these specific activities.
- All non-essential business or non-essential operations must cease in-person operations. Operations may continue if business activities can be performed remotely.
- Essential businesses are those that provide critical services or support for daily living, personal health, or safety. A complete list can be found on the Order and on the FAQ page of the Cass County Health Department website.

Vulnerable populations including the elderly and those with underlying health conditions must stay-at-home. For those who are younger and in good health, please reach out to those in this group and pick up needed items for those who cannot get items themselves. Remember to drop off items at the door and to not make personal contact. We are continuously monitoring the evolving situation and working to ensure our community is prepared.

We ask the public to please continue practicing measures to prevent the spread of COVID-19 while under this Order.

If you suspect that you have COVID-19 or have been exposed to someone with COVID-19, call your healthcare provider to let them know before seeking care. It is critical that your provider is aware you may have COVID-19 prior to your arrival at a healthcare facility, and that you follow all instructions for arriving at a healthcare facility.

For more information please visit our website at www.casscounty.com/2450/COVID-19 or call the State of Missouri Hotline at 1-877-435-8411.
